

Contact Lens Evaluations & Fitting Fees

Contact lenses are medical devices that can cause serious consequences, such as infection, inflammation, permanent damage and loss of vision if not fit and taken care of properly. To properly maintain the health of your eyes, a contact lens must fit accurately and be evaluated on a regular basis. Examining a contact lens patient takes additional time and expertise. For that reason, there are separate, additional charges for contact lens examinations. At our office, we provide state of the art technology and the finest lens materials available to guarantee you receive contact lenses designed for your best eye health and lifestyle demands.

Your annual contact lens evaluation fee covers the evaluation of the current contact on the eye. A fitting fee covers a diagnostic fit, new lens design, initial trial pairs, any necessary new-user instructions and training, and all related follow up care for 60 days.

Because follow up care is essential, it is your responsibility to keep all appointments and follow all lens care instructions. Any additional visits beyond the 60 day fitting period are subject to a per-visit fee. If at any time during the first 60 days you are dissatisfied, your full cost of contact lens materials will be refunded to you once you have returned your undamaged and unopened contact lens boxes. Professional services are not refundable.

Please find our fee schedule below.

Contact lens annual evaluation fee (\$60)

This level of service is to evaluate the health of the eye as it is related to the current contact lens fit as well as checking for potential power and fit adjustments. All appropriate lens options will be discussed.

Level 1: Basic Contact lens fitting fee

(New Contact Lens Wearer \$120, Existing Wearer Refit \$60)

This level of service is available to the patient who has a basic spherical correction. These are soft frequent replacement or disposable lenses.

Level 2: Specialty Contact lens fitting fee

(New Contact Lens wearer \$200, Existing Wearer Refit \$120)

This level of service is for contact lens wearers who require correction of their astigmatism, presbyopia (near vision), or rigid gas permeable (hard lens material).

Level 3: Advanced contact lens fitting fee (determined on individual basis)

This level of service is for lens wearers who require lenses much more specialized. High astigmatism, gas permeable multifocal lenses, keratoconus, or post surgical lens fittings fall into this category. This often requires a specialty and custom ordered contact lenses.

Replacement lenses will be dispensed to those patients whose prescription remains valid and have not surpassed the expiration date. Annual contact lens examinations are recommended for all contact lens wearers.
